ANNOUNCEMENT OF MICROGRANT WINNERS UNDER KMA'S YOUTH IN CLIMATE ACTION FUND

Following the Hon. Mayor's launch of the Youth in Climate Action Microgrant Fund and the subsequent open call on 24th May 2024, for proposals from youth groups aged 15-24 within the metropolis, an impressive thirty-three (33) proposals were submitted to drive climate solutions aligned with KMA's Climate Action Plan for 2024. Of these, three (3) proposals were disqualified due to late submission.

A total of thirty (30) proposals successfully progressed through the first and second phases of the selection process.

The Selection Committee, composed of technocrats, community representatives and the academia, conducted a comprehensive three-week evaluation, which involved reviewing applications, conducting interviews, and justifying budgets. As a result, fourteen (14) proposals have been selected to receive KMA's Microgrant. **The selected proposals are attached.**

Consequently, funds ranging from US\$ 1,000 to US\$ 5,000 will be allocated to the youth groups to implement their projects over a three (3) month duration.

The Hon. Mayor extends his heartfelt congratulations to the winners and commends all applicants for their steadfast commitment to effecting positive change in our community. The Mayor is confident that this initiative, undertaken in partnership with Bloomberg Philanthropies, will have a lasting impact on our environment and inspire others to take decisive action against climate change.

Together, we can strive toward a greener, more sustainable future for the city of Kumasi.
